

HIMANSHU SINGH

Aeronautical Engineering Student

9499698626 | ✉ himanshusinghaero1122@gmail.com

PROFESSIONAL SUMMARY

Aeronautical Engineering student with practical experience in UAV development, aircraft maintenance, glider design, and aerospace systems. Skilled in drone assembly, flight planning, avionics, and technical project execution. Seeking internship opportunities to apply engineering knowledge and contribute to innovative aerospace projects.

EDUCATION

B.E. Aeronautical Engineering | SVIT Vasad, Anand (2022–2026)

CGPA: 7.63/10

S.T. Xavier's High School, Vapi (2021–2022)

Percentage: 65%

INTERNSHIP EXPERIENCE

Engineering Intern – Vymanika Aerospace Pvt. Ltd. (3 Months)

- UAV assembly, inspection, flight planning, and deployment.
- Worked with drone systems and mission-planning software.
- Assisted in drone awareness workshops.

Summer Intern – NDC IAME, Baroda (1 Month)

- Aircraft structural inspection and maintenance.
- Sheet metal cutting and riveting.
- Exposure to propulsion systems and avionics.

PROJECTS

Drone Development Project

Designed and assembled a functional drone, working with flight controllers, soldering, and propeller balancing.

Balsa Wood Glider Project

Designed a lightweight glider and analyzed aerodynamic efficiency, stability, and lift-to-drag ratio.

MECIA Hacks Participant

Collaborated on innovative engineering solutions during a major inter-college hackathon.

SKILLS

Basic CAD • Avionics • UAV Systems • Flight Planning • Leadership • Teamwork • Communication • Critical Thinking

LANGUAGES

English (Fluent), Hindi (Fluent), Gujarati (Basic)
